BRISBANE CITY CENTRE

## When you know more you can do more

Wander and be surprised by unexpected finds and neighbourhood tales in the heart of Brisbane City. At Hotel Indigo Brisbane, we serve the curious – individuals who are open-minded citizens of the world who revel in collecting memories, not things.

Located at North Quay, where local creatives, curious explorers and discerning business travellers come to work and play, Hotel Indigo Brisbane offers guests the opportunity to delve deep into the inner-Brisbane neighbourhood with easy access to central business hubs and plenty of places to explore.

At every turn, Hotel Indigo Brisbane City Centre features distinct design elements that reflect the local neighbourhood. Artwork including hand painted stencil butterflies symbolise bringing the outside in and

line the hotel corridors, which continues the Hotel's authentic street art theme. The décor is locally sourced and influenced making this contemporary space feel like a hideaway.

The corridors lead to guest rooms where impressive artwork by Rowena Martinich was selected to introduce a raw graffiti style treatment complementing the overall street mural art expression.

Hotel Indigo Brisbane offers you a place that allows you to travel like an explorer and encourages you to seek uniquely local experiences. Look a little longer and you'll soon connect the dots and discover stories of our neighbourhood and more. Hotel Indigo Brisbane City Centre is your creatively curated retreat to discover, indulge and imagine.
